

| Variable Name           | Variable Type | Description                                                                         | Notes                                                                                                                                                                                |
|-------------------------|---------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>hospital_id</b>      | string        | Unique hospital identification number, consistent over the full window (2000-2025). | See section 2.5 and appendix A section A.5 for further details.                                                                                                                      |
| <b>hospital_cms_id</b>  | string        | CMS Provider Number                                                                 | Entries with "M..." denote hospitals combined with parent hospitals for reporting in CMS after the acquisition, the provider number following the "M" is the parent provider number. |
| <b>deal_id</b>          | string        | Unique deal identification number.                                                  |                                                                                                                                                                                      |
| <b>deal_year</b>        | year          | Year of deal.                                                                       | Determined by hierarchy: 1. confirmed closing date, 2. confirmed announcement date, 3. deal source reported closing date, 4. deal source reported announcement date.                 |
| <b>hospital_name</b>    | string        | Name of hospital.                                                                   |                                                                                                                                                                                      |
| <b>hospital_city</b>    | string        | City of hospital location.                                                          | As reported by CMS.                                                                                                                                                                  |
| <b>hospital_state</b>   | string        | State of hospital location.                                                         | As reported by CMS.                                                                                                                                                                  |
| <b>hospital_address</b> | string        | Street address of hospital location.                                                | As reported by CMS.                                                                                                                                                                  |
| <b>hospital_zip</b>     | numeric       | 5-digit postal ZIP code of hospital location.                                       | As reported by CMS.                                                                                                                                                                  |

|                               |         |                                                 |                                                                                                                                                          |
|-------------------------------|---------|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>deal_system_level</b>      | numeric | Deal at system level indicator.                 | =1 if deal occurs at system level, =0 if deal at hospital level.                                                                                         |
| <b>system_name</b>            | string  | Name of system.                                 | Available if deal at system level.                                                                                                                       |
| <b>deal_type</b>              | string  | Private Equity deal type.                       | PE deal types include LBO, Growth Equity, and PIPE                                                                                                       |
| <b>deal_announcement_date</b> | date    | Verified deal announcement date, if available.  | Verified with external sources (press release, local news, national news, etc.).                                                                         |
| <b>deal_closing_date</b>      | date    | Verified deal closing date, if available.       | Verified with external sources (press release, local news, national news, etc.).                                                                         |
| <b>deal_announcement_link</b> | link    | Link to verification of deal announcement date. |                                                                                                                                                          |
| <b>deal_closing_link</b>      | link    | Link to verification of deal closing date.      |                                                                                                                                                          |
| <b>deal_exit_date</b>         | date    | Date of PE exit from investment.                | Tracked for LBO deal type only. See appendix A section A.6 for further details.                                                                          |
| <b>deal_exit_type</b>         | string  | Type of PE exit from investment.                | Tracked for LBO deal type only. See appendix A section A.6 for further details. Exit types include Ongoing, IPO, M&A, PE-to-PE, Closure, and Bankruptcy. |

|                                 |         |                                         |                                                                                                                                                           |
|---------------------------------|---------|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>deal_exit_link</b>           | link    | Link to verification of deal exit date. |                                                                                                                                                           |
| <b>hca_flag</b>                 | numeric | HCA PE deal indicator.                  | =1 if included in HCA PE deal, =0 if not.                                                                                                                 |
| <b>stac_status_dispute_flag</b> | numeric | STAC status dispute indicator           | = 1 when a hospital is short-term designated in POS but not short-term designated in other sources (AHA, Medicare procedural volume, HCRIS), = 0 when not |
